

A pixelated version of the Google Plus logo. The letters 'G' and 'E' are white with a thick, dark grey drop shadow, giving them a 3D appearance. The plus sign is a simple white cross. The entire logo is set against a dark navy blue square background. The image has a low-resolution, pixelated aesthetic, with visible square blocks of color and some grey pixels at the corners of the blue square, suggesting a digital or retro theme.
